

YOU MAY ALREADY BE USING  
TECHNOLOGY DESIGN BY ERDOS MILLER

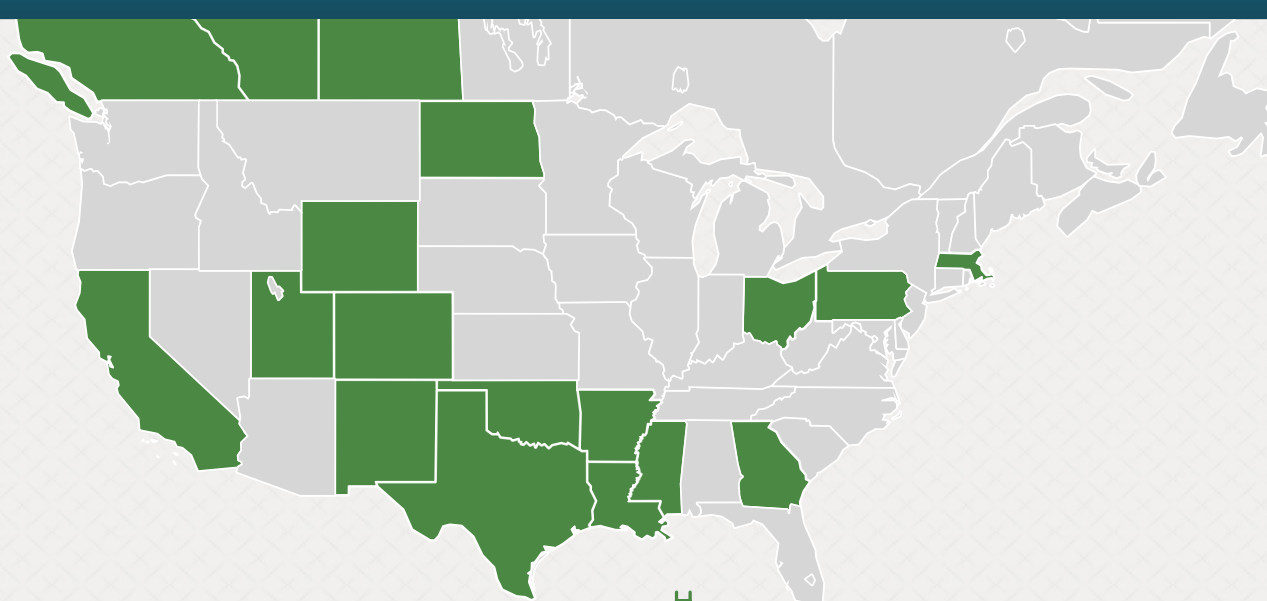

Oilfield Technology and Services companies with names you know, trust Erdos Miller to improve efficiency, accuracy and the overall management of drilling systems. We design, build, and deploy advanced drilling technology on their behalf.

Erdos Miller designed downhole tools have accumulated over

1,500,000\*

circulating hours.

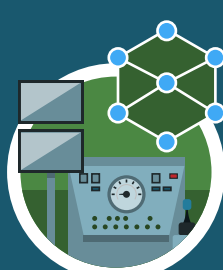

1 in 5 rigs\*

in North America are operating on technology designed by Erdos Miller.

## Advanced Rig Control Algorithms

## Automatic Drilling Systems Downhole Tool Control

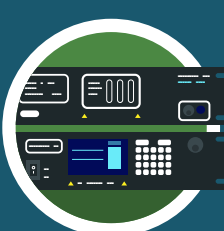

## Manless Mud Analysis Systems

## Rig Monitoring Systems

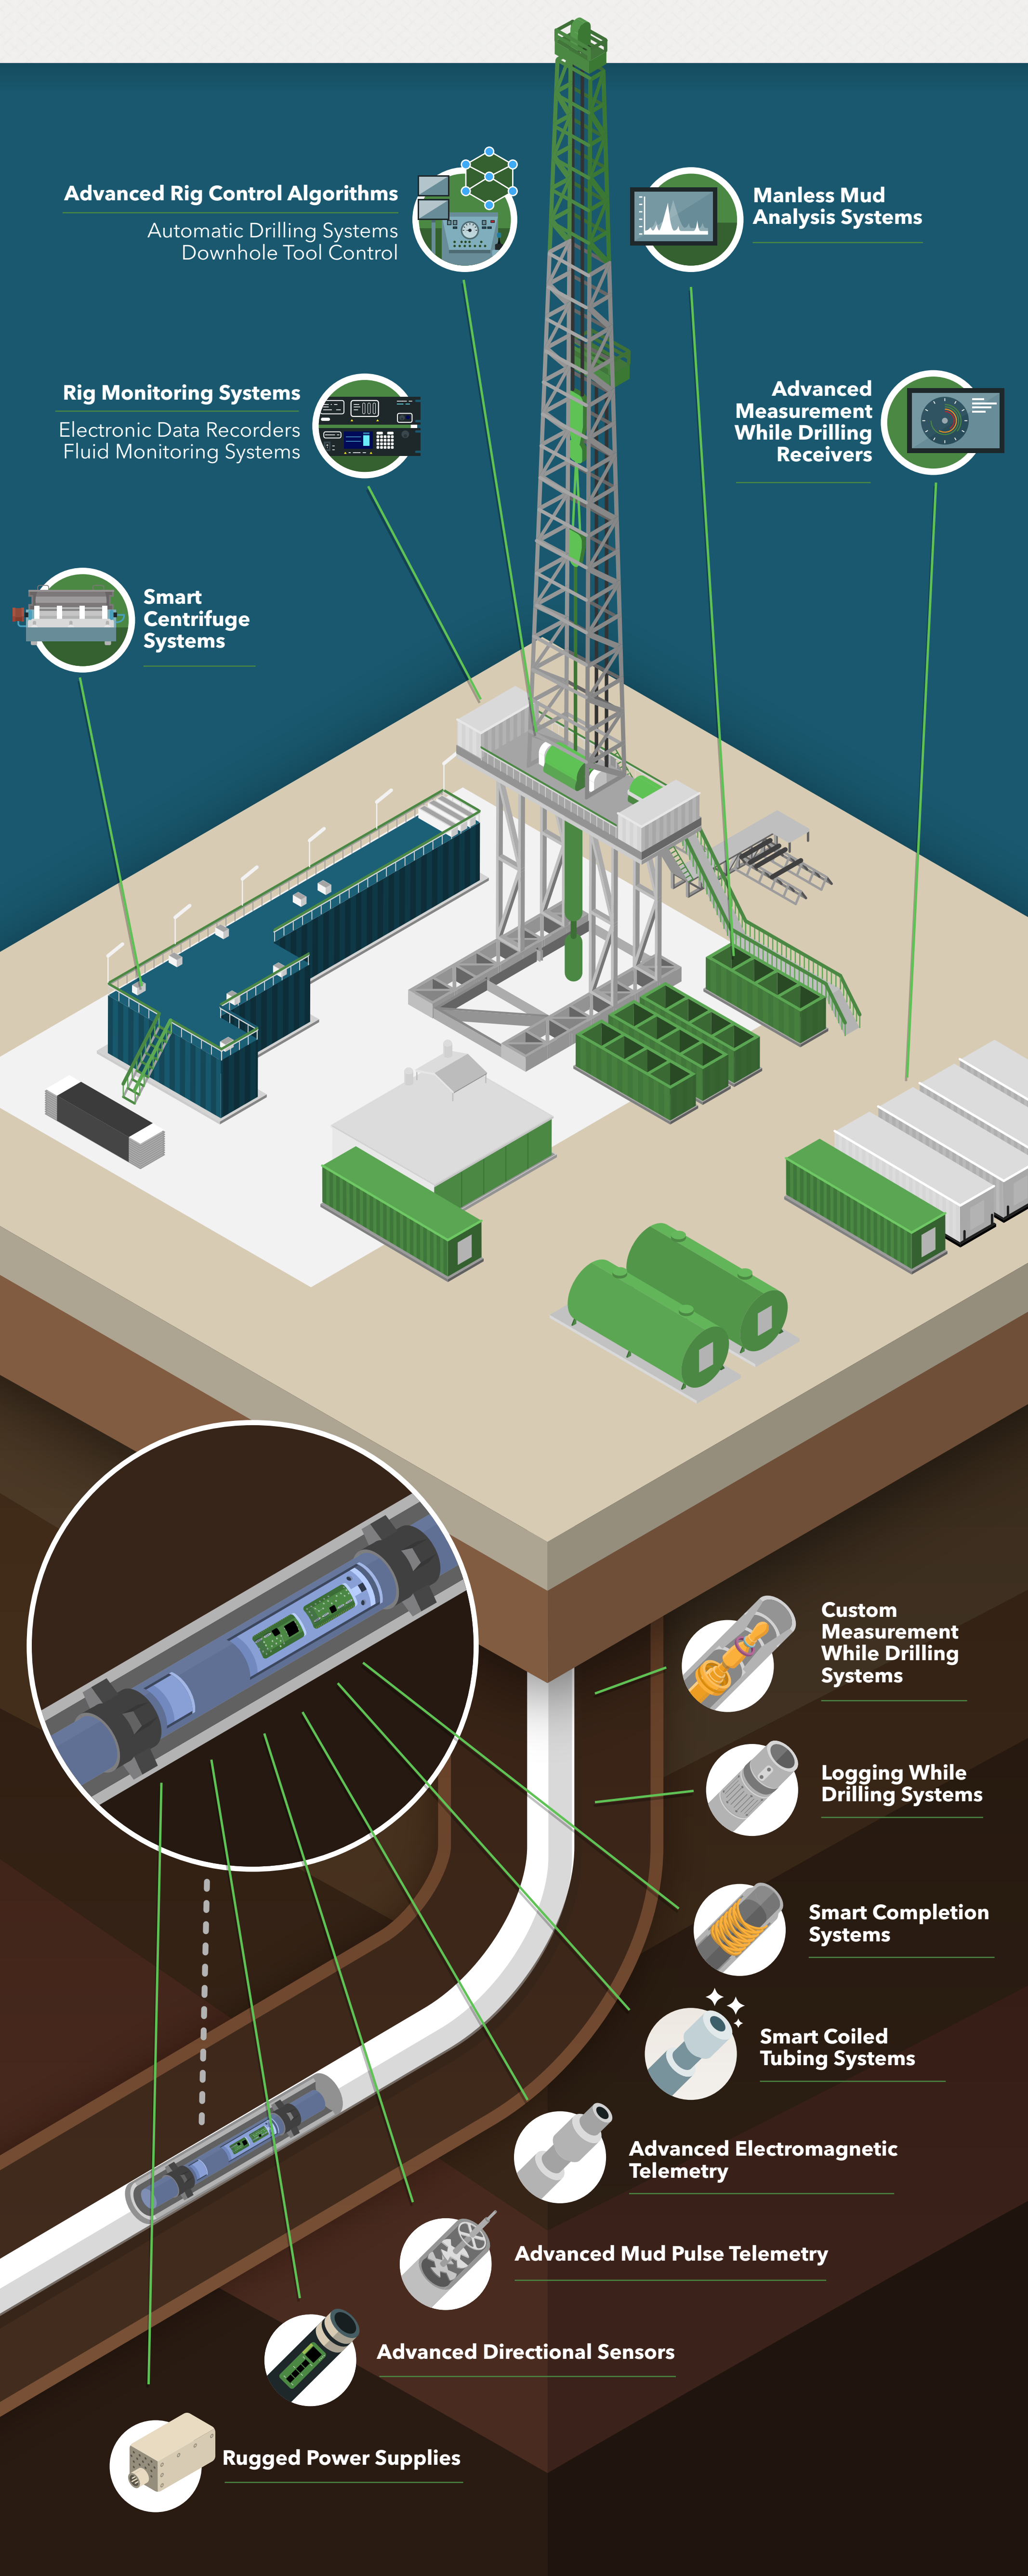

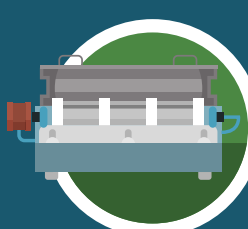

## Electronic Data Recorders Fluid Monitoring Systems

## Advanced Measurement While Drilling Receivers

## Smart Centrifuge Systems

\*Based on publicly available information (such as that provided by the Baker Hughes Rig Count and Drilling Info), Erdos Miller sales data, and approximate estimates of potential field use of delivered technology
