

Test Execution Worksheet

Test Description: TD-010

Application Version: v 0.9.30

Date/Time: 23:55 1/2/17

Repeatability Instructions:

In the event an off nominal or failure occurs, please provide information that allows the situation to be recreated in its entirety, items below may provide some assistance is documentation for repeatability.

- List the step where the failure or off-nominal situation occurred
- If possible to do safely, confirm if the situation can be re-created by going through the steps.
- List an additional steps/circumstances surrounding the failure/off-nominal situation if the test description was not followed verbatim.
- Provide screenshots/video if possible to document off nominal situations if it cannot be properly captured using notes.

Passed With exceptions (list below)
 Failed

Notes:

• Added new startup script, shift register data inconsistent w/ table, select doesn't work, fails quietly, OK after refresh, Database mode fine in target mode
• target x/y doesn't work, every size is empty?
• startup failed b/c of dependencies, trying to set param to not auto-select dependencies (skipped)
• Don't think the 9051 startup app was successful? [My MW]
